Raadi area developments in retrospect. In order to learn one must measure.

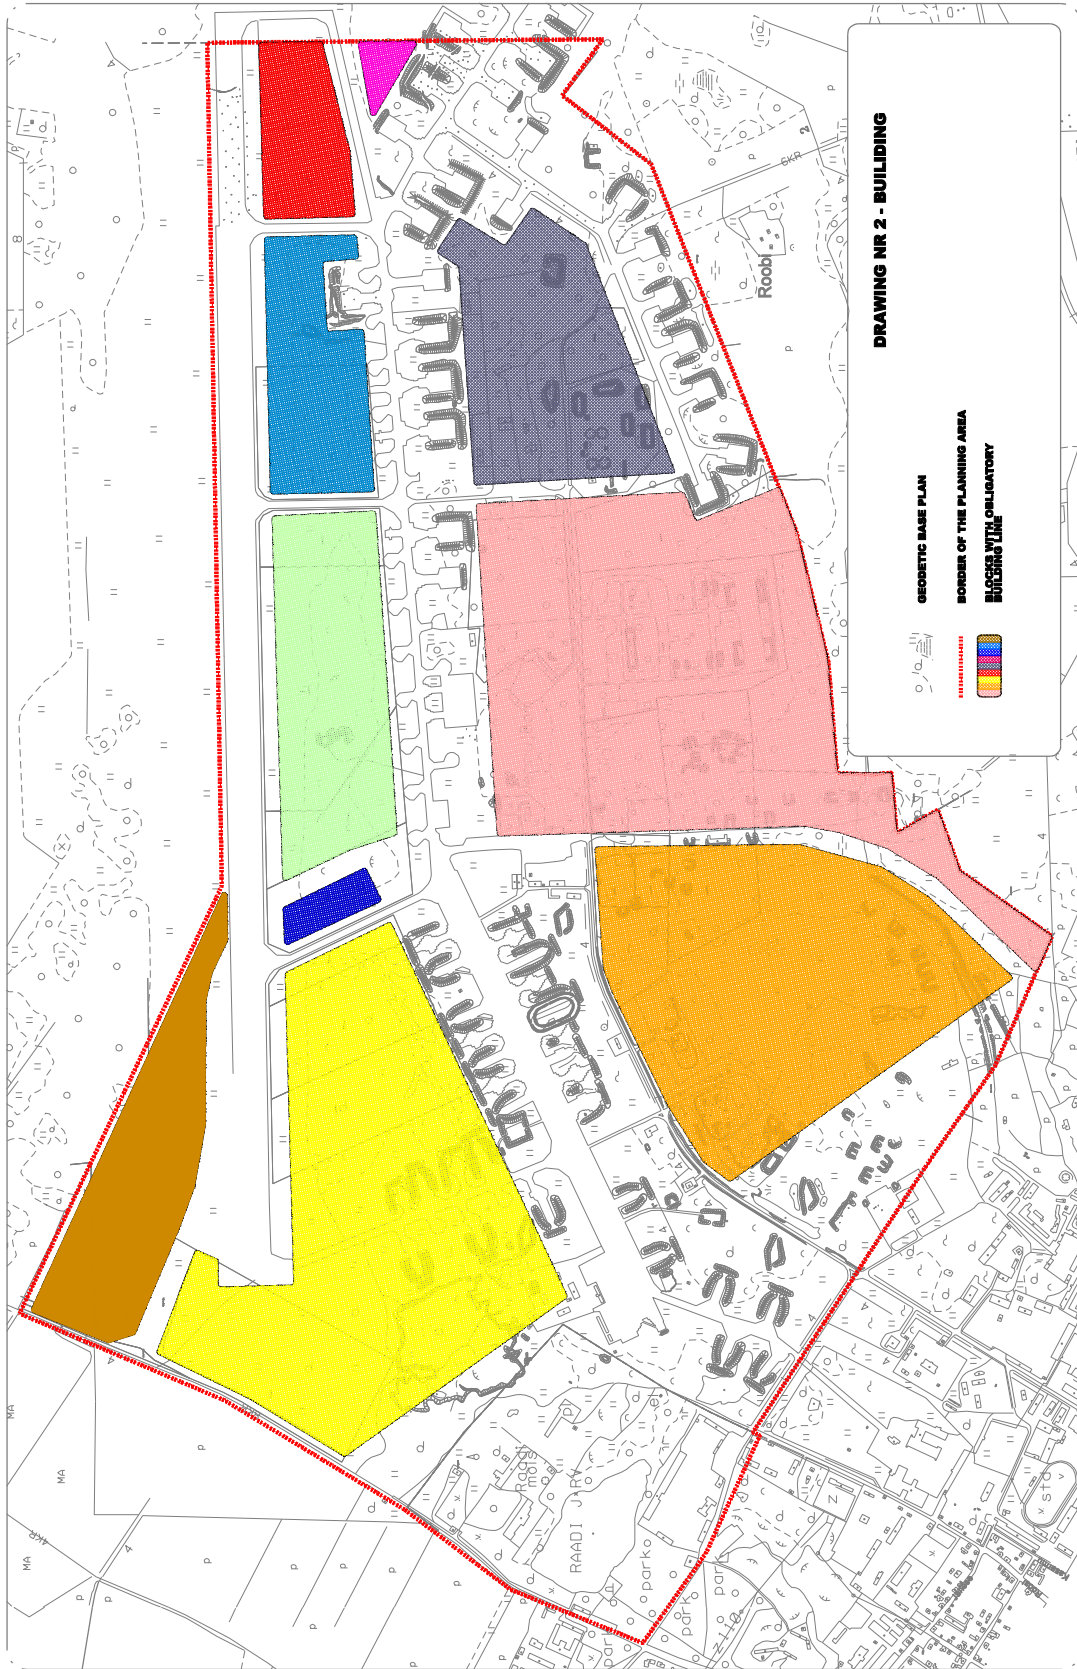

- Analysis of historical events
- Conclusions based on what has happened
- Further actions and means to go forward

Analysis: In Retrospect

- What effects did the 1 Raadi City Forum have?
- What was agreed upon?
- What actually happened?
 - What did we accomplish?
 - What went sideways (wrong)?

What was agreed upon?

What has happened after first Raadi City forum?

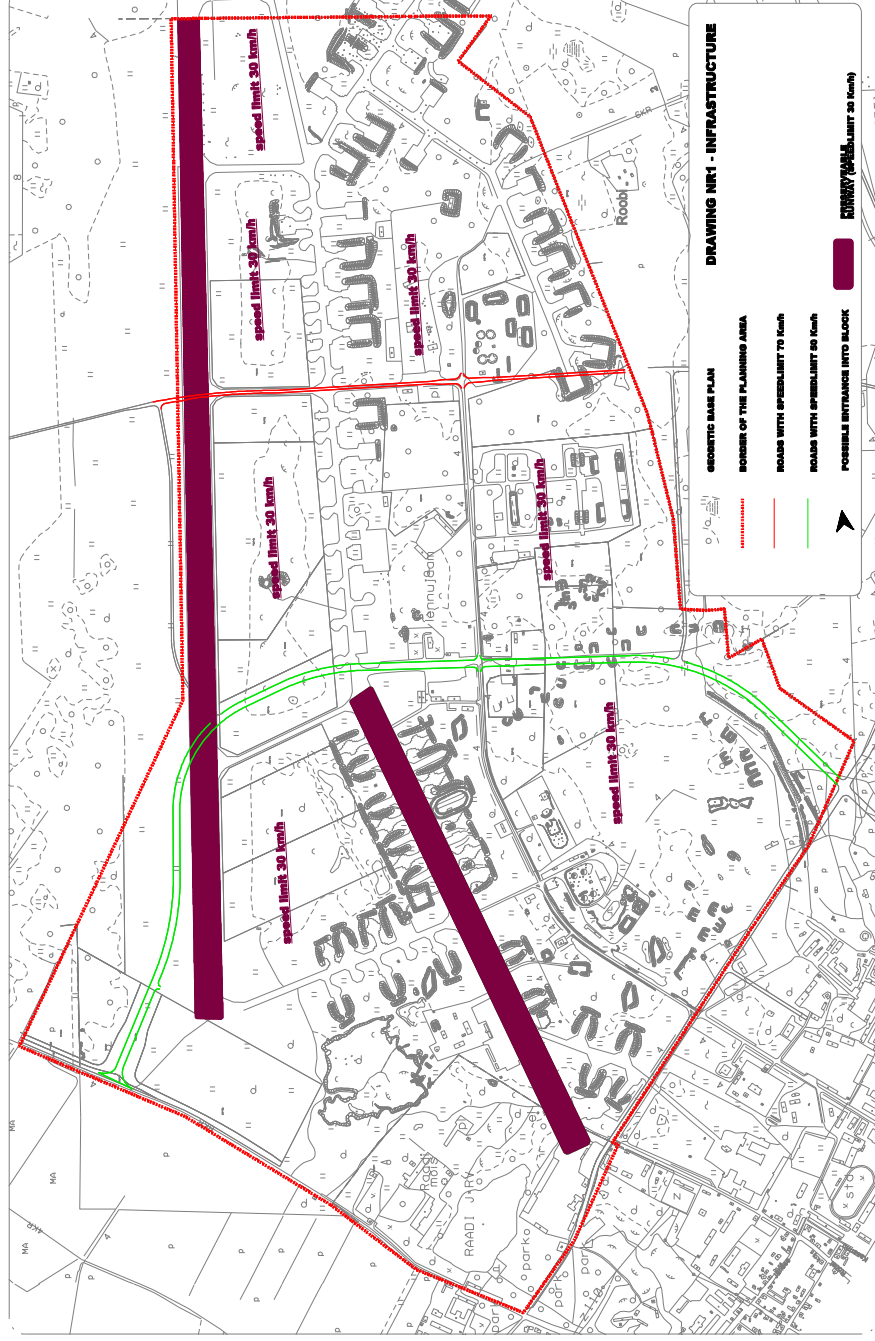

What has happened after first Raadi City forum?

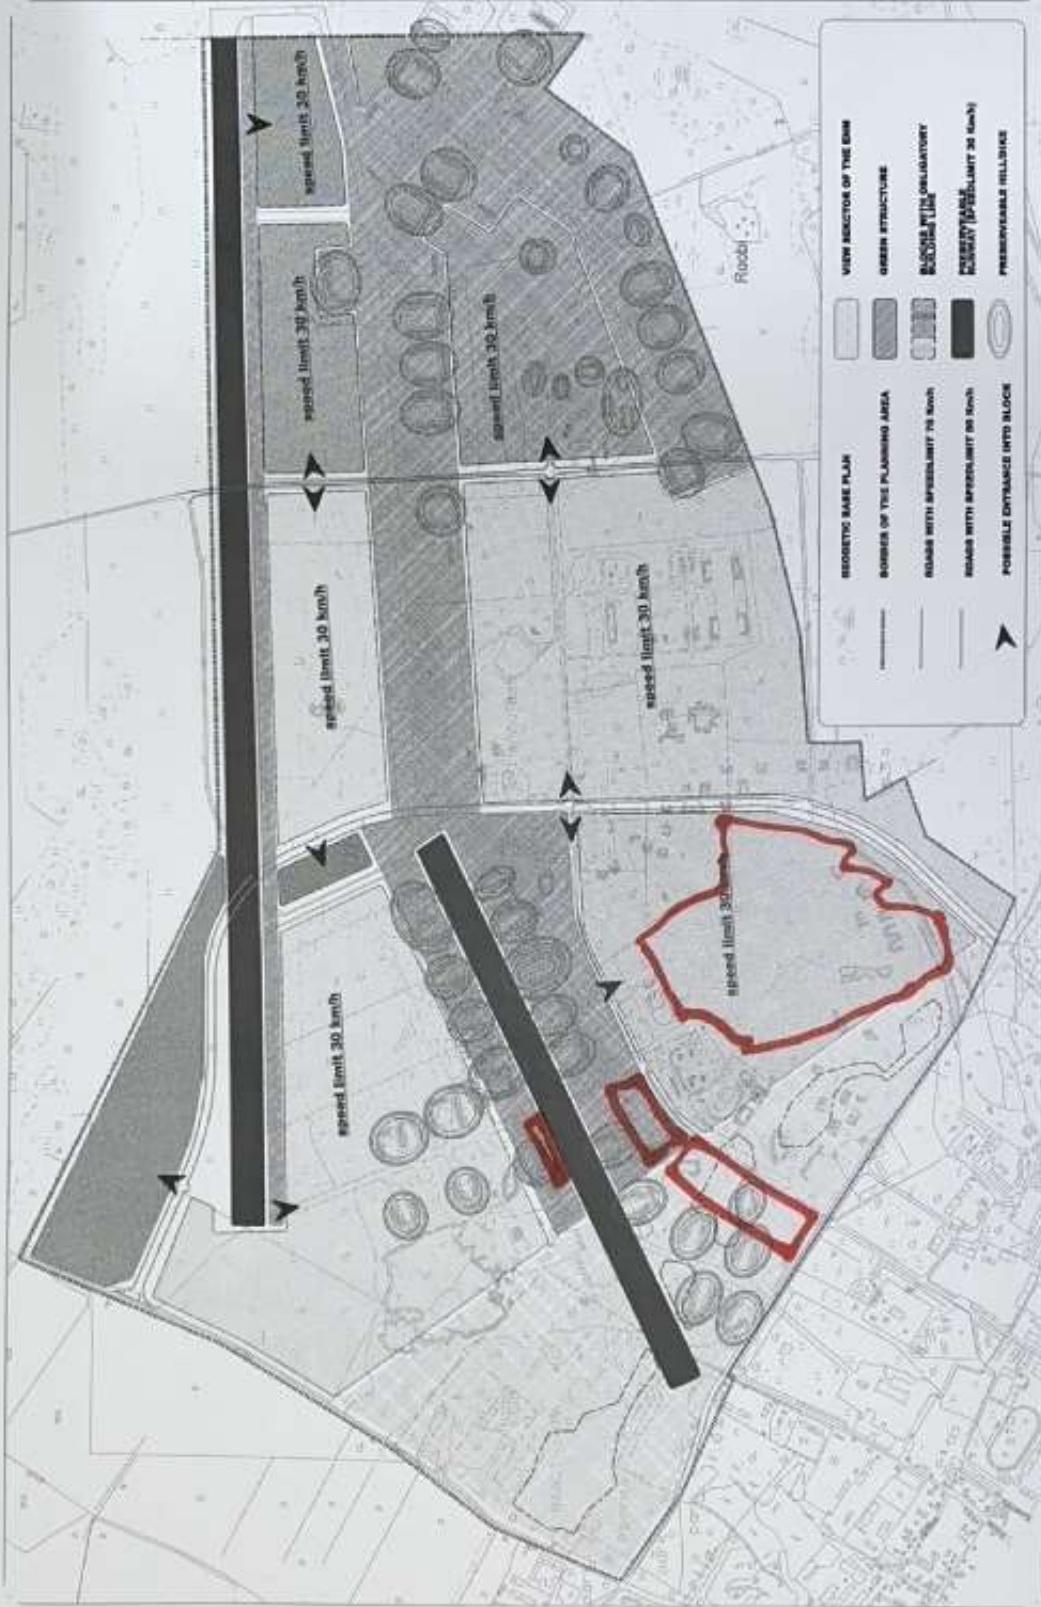

Huge wins:

Estonian National Museum has been built

The airfield runways have been preserved and nobody is planning to build there

Immediate surroundings of the Estonian National museum are forests.

The aim is not to blame

The aim is to learn and do better in the future.

Further actions and means to go forward

Communication is the key

- Toolbox for the municipality
- How to avoid officials for being alone?
- City forum-like meeting once in a year.
- Creating a facebook group for urgent matters.

Idea

Idea

To use those lands in two ways

1. In the perspective of people living there
2. In the perspective of a visitors, coming to see around and take part of performances and events

To use those lands in two ways

1. To live – 10000 inhabitants
2. To visit – public space

How to design a good quality environment for 10 000 inhabitants

From bed town to Smart Living

Shaping use of sustainable energy

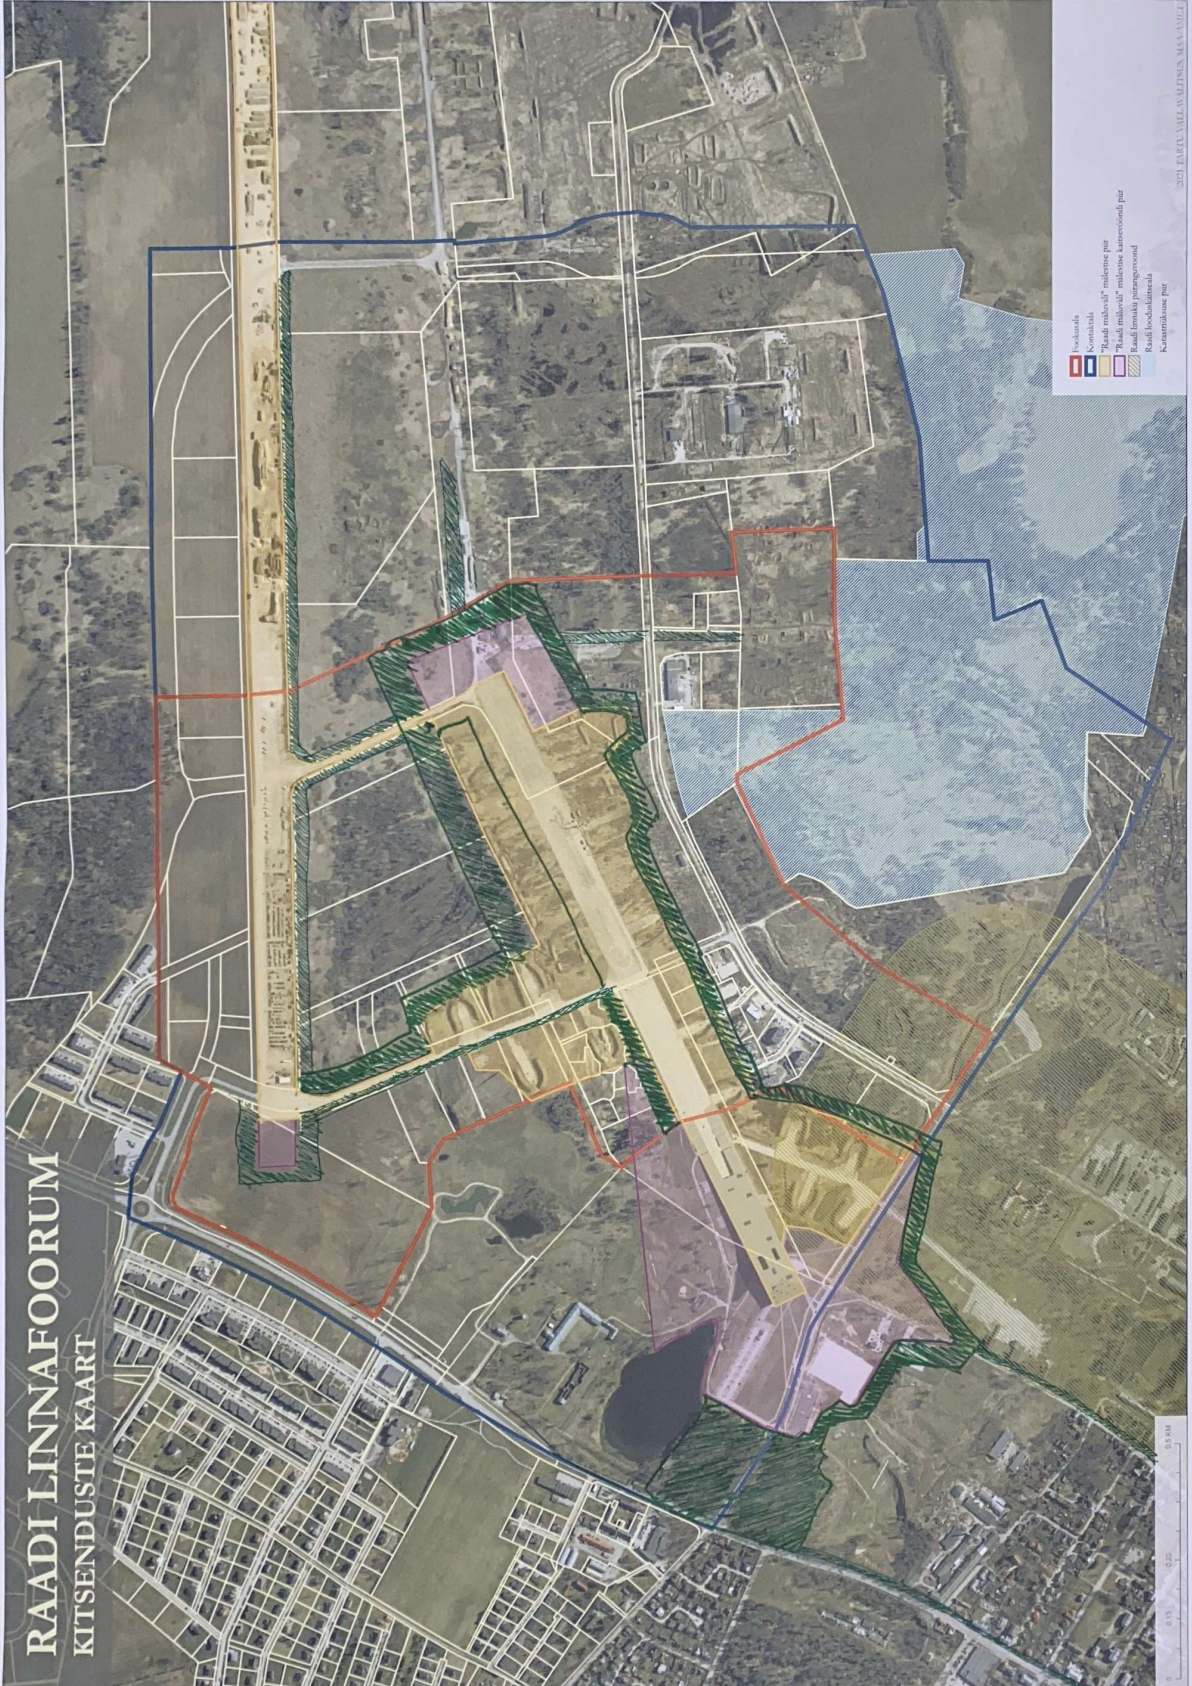

Slow speed

Green spaces

Mix use program in the buildings

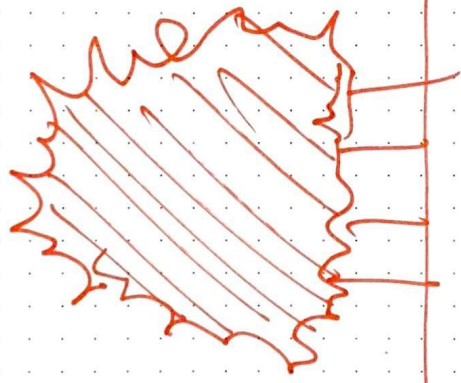

Good connection to Tartu

Apartment

Public space

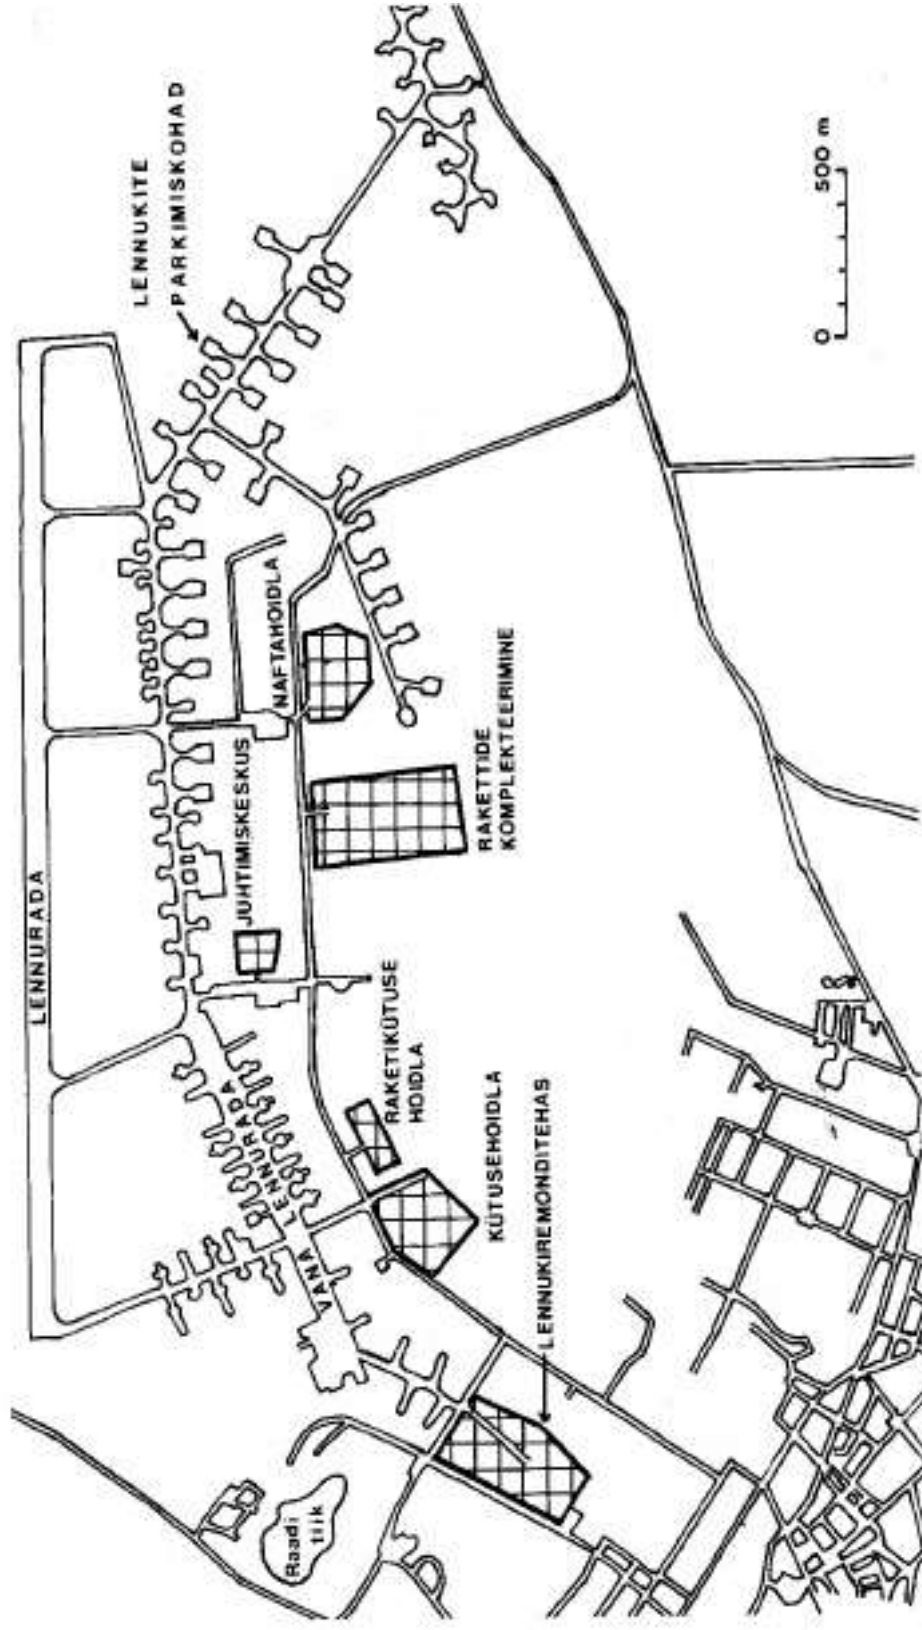

How to create good public space for visitors?

Concept : “Memory Visit” – the aim is not to build , but to program, to curate experiences

- Military memory tour
- Manor memory and farm memory tour
- Natural heritage tour

EVENTS : lead to future memories, therefore we are growing memory bank

Crazy/Great ideas

1. Send a letter to the president
2. 3 km of DATA centre on top of the big airfield
3. 1 big event every year – 100 years in a row.

Crazy/Great ideas

1. Send a letter to the president

1 of 1

THE WHITE HOUSE
WASHINGTON
October 9, 2019

His Excellency
Recep Tayyip Erdogan
President of the Republic of Turkey
Ankara

Dear Mr. President:

Let's work out a good deal! You don't want to be responsible for slaughtering thousands of people, and I don't want to be responsible for destroying the Turkish economy—and I will. I've already given you a little sample with respect to Pastor Brunson.

I have worked hard to solve some of your problems. Don't let the world down. You can make a great deal. General Mazhoum is willing to negotiate with you, and he is willing to make concessions that they would never have made in the past. I am confidentially enclosing a copy of his letter to me, just received.

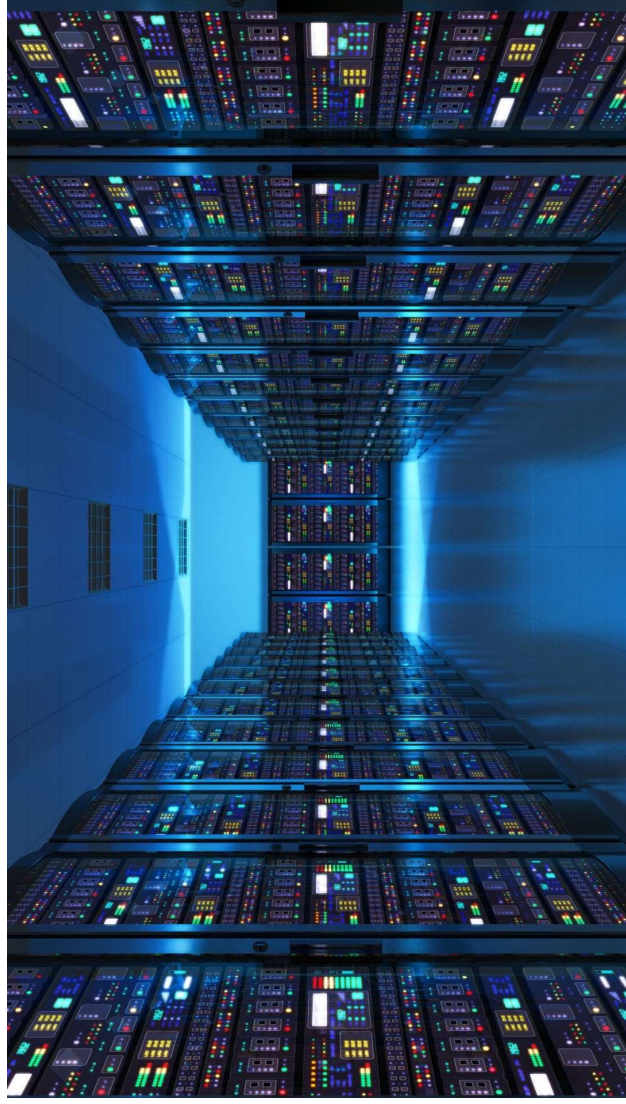

History will look upon you favorably if you get this done the right and humane way. It will look upon you forever as the devil if good things don't happen. Don't be a tough guy. Don't be a fool!

I will call you later.

Sincerely,

Crazy/Great ideas

2. 3 km of DATA centre on top of the big airfield

Crazy/Great ideas

3. 1 big event every year – 100 years in a row.
at least 30 000 visitors x 150 € = 4,5M €, which boosts the local economy!
